

PLEASE AMEND THE SPECIFICATION AS FOLLOWS:

Please replace pages 1 through 63 with the clean versions attached hereto.

In the Claims:

Amend Claim 23 with the clean version provided immediately below to read as follows:

23. (Twice Amended) A method of making at least one human autoantigenic fragment from at least one human autoantigen selected from the group consisting of human DNA-PK_{cs} and human NuMA, comprising the steps of
(a) isolating cells containing at least one human autoantigen, and
(b) contacting the cells with a lymphocyte granule enzyme to produce a mixture containing at least one human autoantigenic fragment.

Please Cancel Claim 26:

26. (CANCEL) The method of claim 25 wherein in step (a) the at least one autoantigen is at least one of human DNA-PK_{cs}, human PARP and human NuMA, and step (b) comprises contacting said at least one human autoantigen with granzyme B.

REMARKS

Upon entry of this Amendment, Claims 23-25, 27 and 30 will be pending in this application.

Amendment of the Specification

Applicant's prior amendment attempted to amend the specification to insert SEQ ID NOs but was found to be Non-Compliant.

Applicant now amends the specification pages 1-63 to insert SEQ ID NOs and correct Tables 2 and 3. Applicant amends Tables 2 and 3 by providing SEQ ID NOs inserted in a new column in each table. Applicant also attached a marked up version of pages 1-63 showing changes to the specification in red and underlined. In addition, except for Tables 2 and 3, there
